Addresses & enquiries

Engineering & industrial support

2013

Established

Al Saad Engineering & Trading provides civil, mechanical, electrical and instrumentation works for power plants and the oil and gas industries, with material supply and local spare parts manufacturing.

Plant equipment & maintenance

01

Boilers and rotating equipment

Commissioning and maintenance of high-pressure boilers. Heavy-duty gas turbines, steam turbines and gas compressors.

Oil systems

Precision lube oil flushing for lubrication and hydraulic systems. Transformer oil dehydration and purification during commissioning.

Piping & structural works

Piping systems

Aboveground and underground piping in carbon steel, stainless steel, GRP, FRP, HDPE and ductile iron.

Fabrication, erection and repair

Piping fabrication, steel structures, repair services and piping insulation.

Cleaning & surface protection

Blasting, painting and coating

Sandblasting, painting and coating of large-diameter cooling-water underground piping, smaller pipes and steel structures.

Plant cleaning

Grit blasting of lube oil tanks and turbine rotors. High-pressure hydro jet cleaning of heavy-duty surface condensers. Work on water inlet screen meshes.

04

Local manufacturing & spare parts

Plant tools and protection

Steel planks and special lifting tools for gas turbines, steam turbines and gas compressors. Rotor preservation containers and high-temperature insulation pillows for steam turbines.

Spare parts and components

Local manufacturing of mechanical seals, boiler ducts and bellows, nuts, bolts, screws, machinery and cycle parts. Toolmaking, metal works, machinery installations and alterations.

Supply, rental & solar services

05

Material supply

Industrial materials, equipment and machinery parts. Supply of nuts, bolts and screws. Buying and selling plant equipment and machinery.

Manpower

Skilled and semi-skilled manpower for outages and routine maintenance at power plants, fertilizer plants and oil and gas facilities.

Equipment rental

Scaffolding materials and other equipment on rent. Plant equipment and machinery on hire.

Solar systems

Installation, commissioning and startup for light industry and residential use.

Rouch Power Plant, Pakistan

412 MW
